

## ABLE TO PAY RENT JULES BOIS IS HALED TO COURT BY LANDLORD

French Writer Claims His Mission to America Protects Him Till War Is Over.

PALM, Oct. 8.—Jules Bois, author, journalist, being, Chevalier of the Legion of Honor, champion of Woman Suffrage and well known in America, has been haled to a Justice's Court today for failing to pay his rent.

Through his counsel, M. Bois pleaded that he was entitled to the benefit of the moratorium, by which payment of the debts of those giving their services to the Government at the present time is postponed until after the war.

M. Bois, his lawyer said, was sent to America by the French Government Department of Commerce and Agriculture to study food conditions and production in this country and had been specially delegated to attend the Panama Exposition. Moreover, the literary man's lawyer protested bitterly against the issuing of his client's library, for books are a literary critic's chief stock in trade. He said his client was in straits because since the war all income from his books and plays had ceased.

M. Bois's visit to America, which began last March and lasted until the middle of September, was a most successful one, socially and officially. He delivered several salon lectures at prominent homes in New York and elsewhere, among them being those of Mrs. Cornelius Vanderbilt and of Mrs. Charles E. Alexander at No. 4 West Forty-eighth Street. It was at Mrs. Alexander's house that he declared:

"Physically and mentally the American woman is now almost superwoman. Her body is developed, harmonious and athletic. She is well read, she is instructed in the sciences, she interests herself in painting, music, poetry and philosophy. You will be the superwoman and you will create your ideal master—the superman."

## DR. KILMER MARRIES AT 73.

Patent Medicine Man Weds His Secretary, 40, in New York.

BINGHAMTON, N. Y., Oct. 8.—Dr. Andral S. Kilmer, seventy-three years old, and his private secretary, forty years old, were married in New York City last night. The romance created a stir in society circles here when it became known to-day that Dr. Kilmer and Miss Catherine Palmer Randenbush had obtained a marriage license. The bride and bridegroom were reticent, but they said that they intended to catch the noon train for New York, where they were to be married.

Dr. Kilmer is widely known as the originator of a patent medicine. At present he is running a large sanatorium in this city, and after the honeymoon Dr. and Mrs. Kilmer will reside here.

## There's Real Broadway Style in These Suits At \$19.75

EVERY "live wire" in America wants the New York look, the smart, snug-fitted appearance of the man who has arrived. To get it used to be a question of price. Now it's a matter of judgment.

You can pay \$50 for a suit and not get the class that modern men want; you can pay \$19.75 and be sure of it if you're keen. It's not a matter of materials, but of mind—masterful designing by the best brains in the clothing business.

It remained with Macy's to discover these clothes. We hunted the markets of the entire country to find them. And we've added to the discovery a common-sense price. That, after all is the

Macy idea, the open secret of the Macy success.

These suits are generously hand-tailored, reproduced in the season's newest materials that we back to the limit, and you know what that means. Some of them are silk lined.

## FIRE!

MACY'S is in complete accord with the aims of the Safety First Society, particularly in its organized efforts to prevent fires.

On every floor we have installed the latest and best of the automatic sprinkler systems approved by the Board of Fire Underwriters.

Fire extinguishing apparatus, poles, axes, hand extinguishers, etc., are placed where they will be within handy reach in case of fire.

And, better than everything else, we have our own fire department among the employees. Every man knows his station, because he takes part in every fire drill of our thousands of employees, and because he and the drills are under the direction of an ex-member of the Fire Department who is on duty here from 8 o'clock in the morning and after the close of the business day.

DO YOUR PART

And when the day's work is done, watchmen, who have been trained to scout and light fires, patrol the floors of the building from sub-basement to roof, ceaselessly throughout the lonely watches of the night.

If we have neglected any precaution against fire, it is because the Fire Department and the Fire Underwriters, whose vigilance knows no bounds, have failed to point it out to us.
